NACHC CAREER & LEADERSHIP COACHING SERVICES

Coaching Services for Staff – At Any Level!

SPECIAL RATES available for NACHC members!

Increase Employee Retention

Coaching allows managers to discuss pressing challenges and opportunities in their employee relationships improving interactions.

Build Leadership Bench Strength

Coaching empowers employees to leverage their unique strengths and gives them an opportunity to practice new, more effective behaviors.

Improve Productivity

Coaches help people stay focused on what is most important and hold people accountable for achieving their development plans.

Increase Learning Retention and ROI

Coaching maximizes health center training dollars by helping individuals move from learning to doing.

About the Services

NACHC is excited to offer career and leadership coaching services to all health center, primary care association, health center-controlled network, and partner agency employees to support personal and organizational growth, development, and sustainability.

Along with our partners at CEEK, LLC, we offer an opportunity to work with coaches who build a trusted, confidential relationship to help you increase self-awareness, improve critical thinking skills, accelerate learning, improve team performance, and support sustainable organizational change.

We offer three types of Individual or Group/Team Coaching:

- **Group/Team “Spot Coaching”:** Single sessions can be purchased on an as needed basis and are designed to provide individuals or teams the opportunity to engage a coach to address a specific professional challenge in a confidential and non-judgmental manner.
- **Group Packages:** Recognizing that most individuals or teams will benefit from a progressive coaching conversation over a series of sessions, NACHC offers an opportunity to procure blocks of six individual sessions or four group/team coaching sessions at a further discount per session.
- **Workshops:** An additional option includes in-person or virtual 4 hour workshops, developed in conjunction with the health center to meet their specific needs (up to 24 people).
