

Eyes on Access: What do we need to know about billing?

Thursday, April 27, 2023

3:00 – 4:30p EST

Application for the CME credit has been filed with the American Academy of Family Physicians. Determination is pending. This session is approved for 1 hour of COPE CE for Optometrists.

In this webinar, you will gain an overview of how eye care services in health centers are coded and billed. Some of the questions that will be answered by the webinar include: How to bill for vision care services, the difference between a vision screening and an eye exam, and how Medicare and Medicaid reimburse for eye care services. This is the first of a two-part series and will be followed by an “office hours” session for Questions and Answers on Thursday, May 18, 2023 at 3 pm EST.

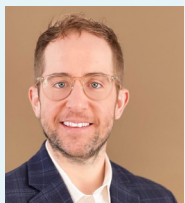

Registration: https://nachc.zoom.us/webinar/register/WN_J4dkwACdTAqHMaVr4R3L6Q

For more information, email trainings@nachc.org.

The [National Association of Community Health Centers](#), the [Association of Clinicians for the Underserved](#), and [Prevent Blindness](#) are offering a two-part webinar series for health centers to learn strategies and models of investment from vision care experts and peers from health centers across the country.

Dr. Amy Moy, OD, FAAO, CPCO is the Director of the Health Center Network of the New England College of Optometry (NECO), with the goal to make eye care accessible for all. She has 19 years of experience in community health optometry and was the Director of Optometry at the Martha Eliot Health Center. As NECO’s certified Chief Compliance Officer, Dr. Moy leads quality assurance initiatives to ensure compliant patient care. Dr. Moy leads a health center network that includes the following health center optometry departments: The Dimock Center, Lynn Community Health Center, Martha Eliot Health Center, North End Waterfront Health, South Boston Community Health Center, Holyoke Health, Charles River Health, East Boston Neighborhood Health Center, and Codman Square Health Center. Dr. Moy is a Fellow of the American Academy of Optometry and the National Academies of Practice.

Dr. Timothy Bossie, OD, FAAO is currently the clinical director at New England College of Optometry (NECO) Center for Eye Care Commonwealth and Roslindale and NECO’s Outreach Clinics. Before serving in this role, Dr. Bossie was the clinical and residency director at Lynn Community Health Center in Lynn, Massachusetts. In addition to his responsibilities as a clinical provider, Dr. Bossie also serves as a clinical preceptor to second, third, and fourth year students throughout their clinical rotations. Outside of clinical practice, Dr. Bossie lectures at NECO on glaucoma and also at several optometric meetings throughout the year.

Dr. Debi Sarma, OD is a graduate of the University of Waterloo (Canada) and the New England College of Optometry (Boston, MA). Her specialized interest in public health led her to complete a residency in community health optometry. She is currently the Director of Eye Care at Codman Square Health Center in Dorchester, MA. The health center is unique in the country as it houses the Codman Academy Public Charter school where 345 students from kindergarten through high school receive an education as well. Dr. Sama has experience in public health, collaborative care, leadership, national mobile eye clinic operations, regulation and compliance, school based clinics, webinar development, continuing education, and clinical precepting. In design principles, she values simplification and convenience in the patient experience. She is committed to improving eye care standards at a national level for the people who need it most.

Greg Stone, BA CEO, Peachtree Health, Marysville, CA Peach Tree Health is an independent, non-profit Federally Qualified Health Center comprised of eight health centers and two mobile dental clinics. We are dedicated to providing a comprehensive medical home to the communities in California’s Capital Region. Peach Tree cares for over 40,000 people annually, including five eye clinic locations. Peach Tree Vision is now the largest provider of eye care for Medi-Cal patients in northern California.
