Financial Operations Management III Effective Leadership and Management Practices for Community Health Center Leaders

Day 1 • Wednesday, May 21, 2025

11:00 am - 12:30 pm Crisis Management And Financial Resilience

This session will focus on equipping healthcare leaders with the skills to navigate financial disruptions effectively. Participants will learn to develop contingency plans for crises such as funding cuts, public health emergencies, or regulatory shifts. The session covers strategies to build financial reserves, manage liquidity, and mitigate financial risks tied to legal challenges and evolving regulations. Attendees will also gain insights into leading financial recovery efforts, ensuring organizational stability and service continuity post-crisis.

Benchmarking and Analyzing Costs for Improving Operations

In today's competitive healthcare landscape, it is essential for Community Health Centers (CHCs) to utilize strategic tools and benchmarks to manage costs, productivity, and revenue effectively. This session, focused on "Developing the Dream Dashboard for the C-Suite," will guide participants through the process of creating a comprehensive, data-driven dashboard tailored to the needs of executive leadership. Attendees will learn about key health center industry benchmarks and how to apply them in practice to establish clear goals and objectives. These benchmarks will serve as the foundation for budgeting and financial planning, enabling CHCs to realize better financial performance. By integrating these metrics into a dynamic dashboard, participants will be equipped to provide C-suite leaders with real-time insights that support informed decision-making and drive organizational success.

Evaluating Fraud Risks and Improving Internal Controls

Fraud can wreak havoc on an organization's financial performance and undermine business objectives. No business is immune from the risks associated with fraud, and community health centers are no exception. Health care organizations have some unique and rampant risks for fraud and embezzlement. This session will cover evaluating risk and improving internal controls.
