

Procedure Template for Direct to Patient

The screenshot displays the athenaNet interface for a patient named Abhi R TEST. The top navigation bar includes 'athenaNet', 'Calendar', 'Patients', 'Claims', 'Financials', 'Reports', 'Quality', 'Apps', and 'Support'. The patient's information is shown as 'Abhi R TEST', '20yo M', '01-20-2000', '#49364', and 'E#49364'. The current procedure is 'Physical Exam', with 'PE' highlighted in a red box. The interface shows a 'Review' step with 'HPI', 'ROS', and 'PE' options. A 'Done with Prep' button is visible. The 'Procedure Documentation' section is open, showing a search for 'tel' and a list of procedure templates. The 'Tele: Direct to Patient Care' option is selected and highlighted in a red box. The interface also shows a 'Next' button and a 'DIAGNOSES & ORDERS' section.

Procedure Template for Direct to Patient

The screenshot displays the athenaNet interface for a patient named Abhi R TEST. The main content area shows a 'Physical Exam' procedure template. The 'Procedure Documentation' section is titled 'Tele: Direct to Patient Care' and contains the following fields and text:

- Encounter conducted via TeleHealth using
- Provider Located in
- Provider Home City/State:
- Patient Located in
- Through testing it was established that the patient could see and hear the provider, and the provider confirmed they could see and hear the patient.
- Spent minutes with the patient

A callout box with an orange background and a black border points to the 'Provider Home City/State' field. The text inside the callout box reads: '*If provider is working from home, they will need to include the city and state of their home is located in.'
