Procedure Template for Direct to Patient

The screenshot displays the athenaNet interface for a patient named Abhi R TEST. The patient's information includes age (20yo M), date of birth (01-20-2000), and identification numbers (#49364, E#49364). The current encounter is a Physical Exam (PE) conducted via TeleHealth. The 'PE' dropdown menu is highlighted in red, and the 'Tele: Direct to Patient Care' option is selected in the dropdown menu. The interface also shows a sidebar with navigation options like Find, Allergies, Problems, Meds, Vaccines, Vitals, Results, Visits, and History. The main content area displays 'Procedure Documentation' with a search bar and a list of previous procedures and templates. The 'Tele: Direct to Patient Care' option is checked in the list.
