Confirmed Cases in Maryland (as of 5/12) = 33,373

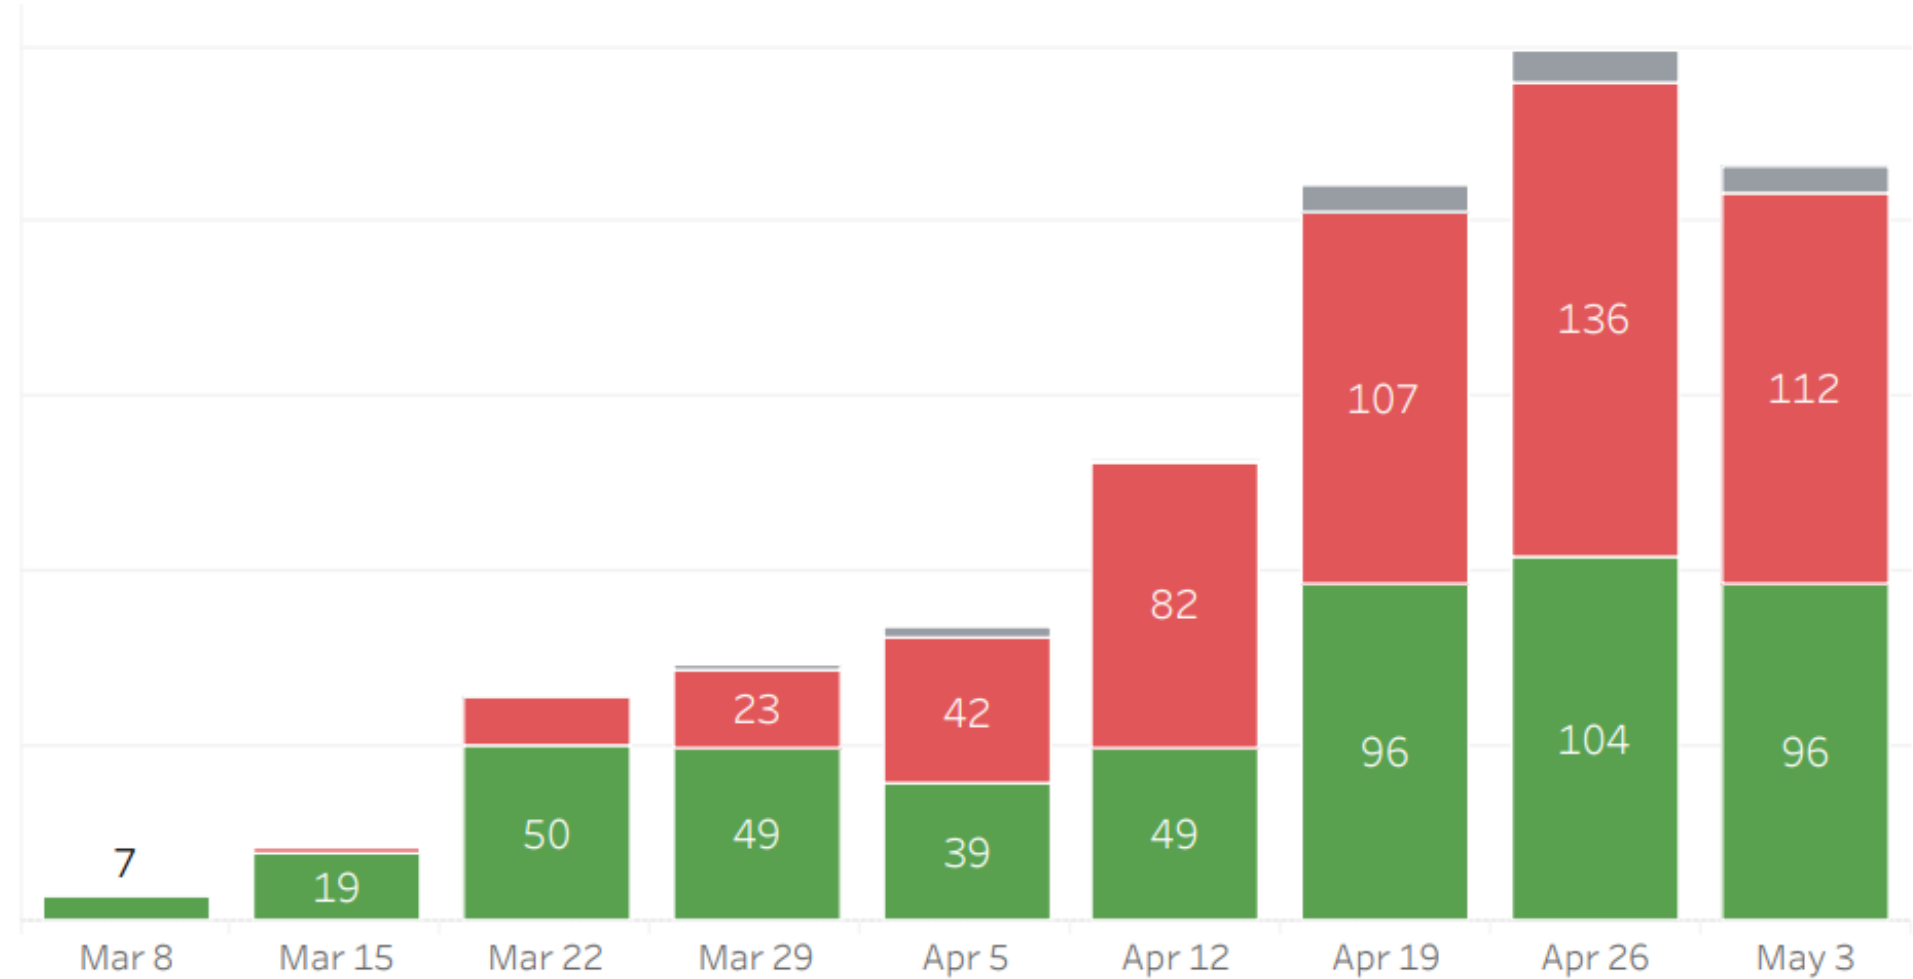

Montgomery County = 6909

- Prince George's County = 9687

Confirmed Cases in DC (as of 5/10) = 6389

PATIENTS TESTED FOR COVID-19

■ pending ■ positive ■ negative

Why Should I Get a Flu Shot?

- [Flu vaccination](#) can keep you from getting sick with flu.
- Flu vaccination can reduce the risk of flu-associated hospitalization for children, working age adults, and older adults.
- Flu vaccination is an important preventive tool for people with chronic health conditions.
- Flu vaccination helps [protect women during and after pregnancy](#).
- Flu vaccine can be life-saving in children.
- Flu vaccination has been shown in several studies to reduce severity of illness in people who get vaccinated but still get sick.
- Getting vaccinated yourself may also protect people around you, including those who are more vulnerable to serious flu illness, like babies and young children, older people, and people with certain chronic health conditions.
- In the context of the COVID-19 pandemic, it's even more important to do everything possible to reduce illnesses and preserve scarce health care resources.

Can I Get the Flu from the Flu Shot?

While a flu vaccine cannot give you flu illness, there are different side effects that may be associated with getting a flu shot or a nasal spray flu vaccine. These side effects are mild and short-lasting, especially when compared to symptoms of bad case of flu.

- **A flu shot:** The viruses in a flu shot are killed (inactivated), so you cannot get flu from a flu shot. Some minor side effects that may occur are:
 - Soreness, redness, and/or swelling where the shot was given
 - Headache (low grade)
 - Fever
 - Muscle aches
 - Nausea
 - Fatigue

Clinical Updates

- **Patient story**
 - Making a difference
- **Community Impact**
 - What is it?
 - How does it happen?
 - Why?

**We proved that we are still a people
capable of doing big things
and tackling our biggest challenges.**

Barack Obama

People Updates

- Upcoming legislation and advocacy
- May and June Financials
- What might reopening look like?

People Updates – What May Reopening Look Like

- Attestation forms & temperature scans
- Social distancing (staggered schedules)
- Potential quarantine when returning from out of state travel
- Depending on symptoms, employee health may require negative test results
- Requiring facemasks
- All meetings to continue virtually

Mary's Center
Quality healthcare. Stronger communities.

Daily Attestation Form

To keep all healthcare staff and our patients safe, all Mary's Center personnel are being asked to sign this document at the beginning of their work day.

By signing below, you are attesting that you have none of the following symptoms:

- Fever
- New or worsened cough that is not attributable to another medical condition
- New or worsened muscle aches (myalgias) not attributable to another medical condition or another specific activity (e.g. due to physical exercise)
- Throat pain (pharyngitis) not attributable to another medical condition
- New or worsened shortness of breath (dyspnea) not attributable to another condition

****If presenting with these symptoms, please notify your manager immediately, contact employee health at (202) XXX-XXXX and return home.****

Thank you for helping keep our staff and patients safe!

1. Type your name attesting that you have none of the symptoms listed above.
2. Enter your answer
3. Please type today's date below (Please input date in format of mm/dd/yyyy)

CEO Update

CEO Update – Mayor's Committee on Reopening

Values of The Human Services, Social Services, and Health Committee

CEO Update – Mayor's Committee on Reopening

The Human Services, Social Services, and Health Committee focused on five sectors:

Figure 1. Risk Matrix by Sector

Sectors	Contact Intensity	# of Contacts	Modification Potential
Hospitals	High	High	Low/Medium
Doctors, Dentists, Maternal Care, Dialysis Facilities, and Nonemergency Medical	-	-	-
Doctors	High	Low	Low/Medium
Dentists	High	Low	Low/Medium
Maternal Care	High	Low	Low/Medium
Dialysis Facilities	High	Low	Low/Medium
Nonemergency Medical	High	Low	Low/Medium

Health Centers, Skilled Nursing Facilities, Long-Term Acute Care Facilities, Home Health Care Agencies, Assisted Living Facilities	-	-	-
Health Centers	High	Low	Low/Medium
Skilled Nursing Facilities	High	High	Low/Medium
Long-Term Acute Care Facilities	High	High	Low/Medium
Home Health Care Agencies	High	High	Low
Assisted Living Facilities	High/Medium	Low	Low
Mental Health	High	High	Medium
Homeless Services, Public Benefits, Child Welfare	-	-	-
Homeless Services	High	High	Low
Public Benefits	Medium	Medium	Medium
Child Welfare	High/Medium	High/Medium	Medium

CEO Update – Mayor's Committee on Reopening

Focus on ensuring that the sector's institutions, workforce, and those they serve can get care safely, equitably, and efficiently.

1. Provide Guidance for Essential Care
2. Ensure Access to PPE, Equipment, Supplies, and Other Safety Measures
3. Accelerate the Use of Telehealth, Technology, and Connectivity
4. Stabilize and explore best models for the Workforce
5. Employ Effective Communication Strategies
6. Prioritize the District's Most Vulnerable Residents

CEO Update – Mayor's Committee on Reopening

Finally, providers in these sectors should embrace the well-known “hierarchy of controls:”

1. Physical Distancing
2. Engineering controls
3. Administrative control
4. PPE

CEO Update – Mayor's Committee on Reopening

Considerations for next phase of reopening

Phase two assess and improve on the existing system by building on opportunities, challenges, and lessons learned

1. Institutional Integration
2. Improve on Telehealth
3. Data and Performance
4. Reimbursement
5. Safety

QUESTIONS?

Moment of Silence for all the
injustices in our nation

“All labor that uplifts humanity has
dignity and importance and should be
undertaken with
painstaking excellence.”

Martin Luther King, Jr.
