Community Health Centers®

# ORGANIZATIONAL MEMBERSHIP

# → OUR MISSION

The National Association of Community Health Centers (NACHC) was founded in 1971 to promote the provision of high quality, comprehensive and affordable health care that is coordinated, culturally and linguistically competent, and community directed for all medically underserved populations.

NACHC is the leading advocacy organization representing the nation's community-based health center programs and the people they serve. We work with chartered State and Regional Primary Care Associations (PCAs), Health Center Controlled Networks (HCCNs) and other public and private partners to fulfill its mission.

“We’re thankful for the passion and purpose so profoundly demonstrated by NACHC.”
